

#### Testing Login Functionality:

1. Open the FriendlyTap application on an android device.
2. The Log in with Facebook button should be on the front page. (Page 2)
3. After pressing the login with Facebook button, you should be brought to the login page for the Facebook application. (Page 3).
4. If you are already logged in, or you have successfully logged in with Facebook, the login with Facebook button will change to a Log out button.(Page 4)
5. After Pressing the log out button, a confirmation box will appear with the name of the logged in user. (Page 5).
6. After Logging out you will be back to the first screen. (Page 2).
